

05 · **BROADCAST + SHELF**

↳ *The Scoreboard's verdict needle and live-ticker drama, fused with Refined Columns' always-on roster shelf and drag-to-trade interaction. Build the trade by dragging — verdict reacts in real time.*

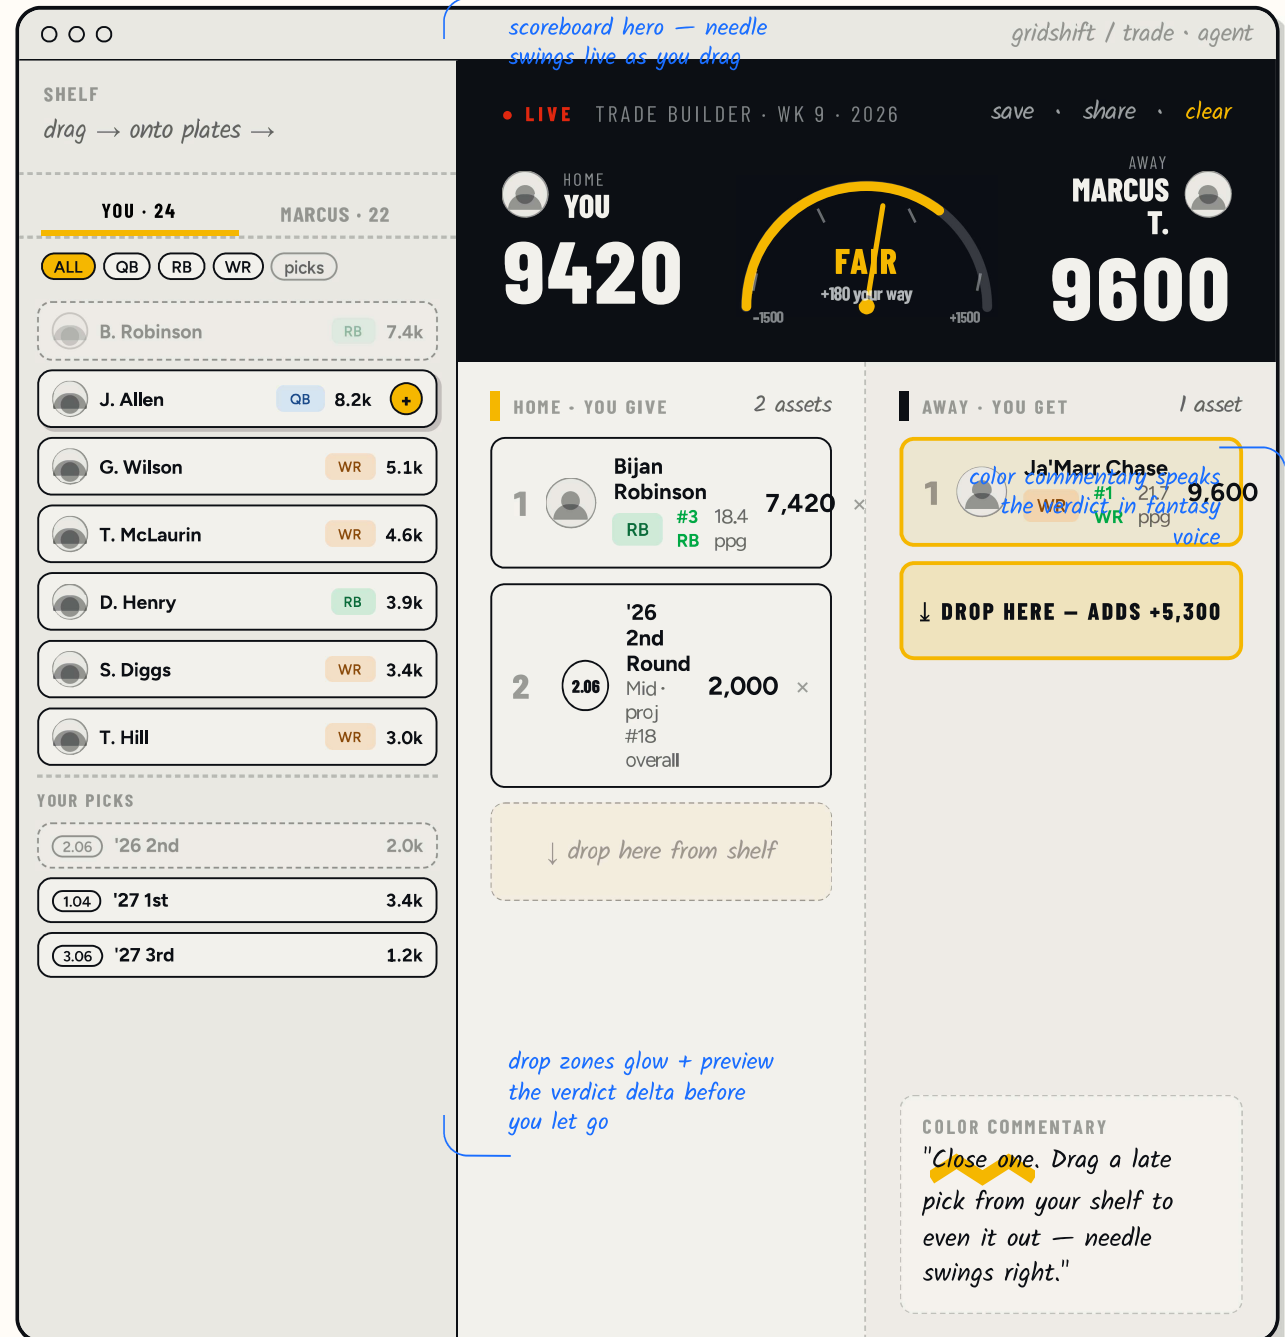

KEY MOVES

- Broadcast hero: needle dial + dual totals
- Persistent roster shelf, drag → drop zones
- Two scoreboard "plates" as drop targets
- Color commentary speaks the verdict

MOB · 360
Hero dial up top, draggable shelf below

DESK · 1024+ Hero scoreboard, plates as drop targets, shelf in left rail

■ GRIDSHIFT · TRADE BUILDER

APPENDIX · TENSIONS & NEXT STEPS

DESIGN TENSIONS

Speed vs. *showing your work*

Power user fluency vs. *casual newcomer*

Auto-magic vs. *user trust*

Compact mobile vs. *analytical desktop*

Drag-and-drop vs. *tap-to-add*

RECOMMENDATION

Direction 05 · Broadcast + Shelf combines the broadcast-graphic energy of Scoreboard with the always-on roster shelf and drag interaction from Refined Columns.

The shelf supports **both drag and tap-to-add** — power users get fluent gesture, casual users get a clear button. The needle dial up top reacts live as assets enter or leave either plate, so the verdict is never a click away.

NEXT

Hi-fi pass on 05: real type, player photos, animated needle transition, and a haptic-tuned drag interaction. Stress-test the mobile layout with 4+ assets per side and a sticky verdict bar.
